Subject: RE: Letter for Data Training

Evergreen Academy,

Thank you for all great techniques and tools that you've shown to Kathy this past year. She already had a solid foundation for charts, but what she's learned has taken it to the next level. Kathy has already been flagged as the resident chart person and she's helped out a number of teams on streamlining charts for their reports. In a world where people have less time and is more data-focused, being able to clearly communicate our data and findings to people is critical, and Kathy's knowledge is going to help us keep up the pace.

Thanks,

Ian Green

Audit Manager
